April 2026

PRES Sez

Please look at the last 3 pages
- Important

Hi all,

Welcome to April and the warmer weather (I hope soon)! The weather has been teasing us for sure! But it is Michigan. One person that isn't complaining about the weather is Dennis KT8X! After his visit to Bouvet Island, this must feel like Hawaii for sure! And lets get a big turnout for the meeting in April. Dennis will be presenting the DXpedition 3Y0K Bouvet Island at the meeting. Here is your chance to be in the presence of someone that has walked on the island. This is more rare then going into outer space! I'm sure I speak for many in the club, we are looking forward to this presentation.

Speaking of Bouvet, I was able to make contacts via FT8 on 6 bands and they are confirmed. The only way I was able to get this contact is because of the new tower I put up this last summer. Without that, I don't think I would have made contact at all! The cost per QSO is around \$1,200. But I'm not going to tell my wife that.

Speaking of retirement, I am officially retired! I'm still getting caught up on things around my house. The news letter will get better (back closer to Chets quality) with more content. But I did get a notice from Microsoft that MS Publisher will be End of Life in October so this summer, I will either build the news letter in Word, or find a open source publishing software to do the news letter. Microsoft says you will not even be able to open a file with it. We will see.

I want to thank everyone that attends the meetings, helps with club activities and the website. This is what keeps the club going.

We are looking for a "Program Director" if anyone is interested. In the meantime, if anyone knows of any good presentations, please let the board know and we will see if we can get them signed up. We currently have **NO** presentations for May and June. If anyone has any ideas, please let me know. I know Fred 1 has many DXpeditions DVDs which we could use for presentations.

Prez Sez

(continued from page 1)

I have made progress on countries/entities that I have made contact with. Last reported I am at 295 contacts to different countries/entities and 285 are confirmed. I am now at 296 with 287 confirmed. Even more progress!! I'm 4 away from 300 contacts and only 13 away from 300 confirmed!!

Our board for SEMDXA, all volunteered to stay on the board in the same positions for the 2025/2026 season. The Prez – 73's

- President: Fred Goeckel, KD8ZYD
- Vice President: Pete Gladysz, K8PGJ
- Secretary: Brad N8SNM / Fred KD8ZYD
- Treasurer: Brad Nowak, N8SNM
- Program Director: Needed**

Meeting Minutes

MEETING MINUTES

Meeting called to order by President Fred KD8ZYD @ 6:44pm

Introductions with 13 members in attendance. 0 members via zoom.

March minutes published in Long Path. Move to accept, Lee N8LJ 1st., Fred W1SKU 2nd, Passed

Treasurers Report by Treasurer Brad - N8SNM. Motion to accept by Al K8SIX 1st., Mike WD8S 2nd Passed.

NEW BUSINESS

DUES ARE DUE.

President discussed email re: "Spotted Ham link on website to be coming.

Keith Baker KB1SF presented the Vibroplex Key donated to SEMDXA by the late Chet Latawiec VE3CFK. The key was used on the VP8ORK Dxpedition to South Orkney in Jan. – Feb. of 2011 and signed by all of the operators including Nigel Jolly – Captain of the vessel Braveheart. More discussion followed regarding how to offer the key to the highest bid from a SEMDXA member prior to offering it on Ebay or QTH.com or QRZ. Still no decision on method. Final decision tabled until next mtg.

YouTube presentation on BS7H Dxpedition to Scarborough Reef in May of 2007 was viewed by group.

Motion to adjourn meeting @ 8:01 pm by President Fred. Fred W1SKU 1st – Al K8SIX 2nd.

Ask AI

Fred, KD8ZYD asked Microsoft CoPilot to write - Write 5 paragraphs on the history of St Peter 1 Island? This is what was said!

The History of St Peter 1 Island

Peter I Island, located in the Bellingshausen Sea off the coast of Antarctica, has a history defined by isolation, difficult access, and intermittent exploration. The island was first sighted on 21 January 1821 by Russian explorer Fabian Gottlieb von Bellingshausen, who commanded the ships Vostok and Mirny. He named the island after Tsar Peter I of Russia. Pack ice prevented his expedition from approaching closer than about 25 kilometers, but the sighting was significant: it was the first land ever recorded south of the Antarctic Circle, making it the southernmost land known at the time. Wikipedia

For nearly a century after its discovery, no one managed to land on the island. In January 1910, French explorer Jean-Baptiste Charcot confirmed Bellingshausen's discovery during his Antarctic expedition aboard Pourquoi-Pas, but heavy pack ice again prevented a landing, stopping the ship roughly 5 kilometers from shore. The island's remoteness, harsh weather, and persistent ice made it one of the most inaccessible places on Earth, a reputation it still holds today. Wikipedia

Norwegian interest in the island grew in the early 20th century, driven in part by the whaling industry and the desire to secure territorial claims in Antarctic waters. Norwegian sailor Eyvind Tofte circumnavigated and surveyed the island in 1926 and 1927 but was unable to land. A breakthrough finally came on 2 February 1929, when Nils Larsen and Ola Olstad of the Second Norvegia Expedition—financed by whaling magnate Lars Christensen—became the first people to set foot on Peter I Island. They claimed it for Norway, which formally annexed the island in 1931 and designated it a dependency in 1933. Wikipedia westarctica.wiki

A second successful landing occurred in 1948, again by a Norwegian expedition, which conducted biological, geological, and hydrographic surveys over several days before pack ice forced their departure. The team built a small hut and left a copy of the 1929 occupation document inside. Scientific interest in the island continued through the mid-20th century, and in 1961 Peter I Island became subject to the Antarctic Treaty, which placed it under international regulation for peaceful and scientific purposes. westarctica.wiki

In modern times, Peter I Island remains uninhabited and rarely visited. An automated meteorological station was installed in 1987, and only a small number of scientific teams, tourists, and amateur radio DX-peditions have managed landings due to the island's extreme inaccessibility. Despite its isolation, the island holds a unique place in Antarctic exploration history as one of the earliest discovered—and least visited—pieces of land in the far south. Wikipedia

Dennis - KT8X

Dennis, KT8X is now the Great Lakes Division Representative to the DX Advisory Committee. If you have any questions or request, please reach out to Dennis. Or better yet, please attend a meeting and we can all hear the request.

E5/S - South Cook Islands

K7TLM, Tom, and KD7YZE, Leslie Atiyeh, will operate as E51TLM from Rarotonga (OC-013) May 4-9, 2026, using an IC-705 radio at 5 Watts with a 10 Meter end-fed wire antenna. Listen for them on SSB (28.385 MHz) and QRSS CW (28.060 MHz) between 1900 and 0100Z

KC4 - Antarctica

UA1CCI, Yuri Kovalenko, is stationed at the Russian Novolazarevskaya Station (grid locator JB59vf) in Antarctica through 2028. He will be QRV as RI1ANY on the HF bands, QO-100 and DMR

Thank you to Bernie, W3UR, The Daily DX, The Weekly DX, ARRL and dx.radio, NG3K, CLUBLOG, Dales Tales and DX News.com for their contributions

VK9/C - Cocos (Keeling)

VK9BSA, Mark, and VK9DEE, Deena, have received their radio equipment at Cocos (Keeling) and are now active on the air until May 17th, with operations mainly on weekends and after work, as they balance family life on the island

PJ4 - Bonaire

After over 16 years and 300,000 contacts, NP2X and KP2RUM have ceased operations. Fred (K9VV) and Lisa (W4LIS) have moved to Bonaire, where they will soon be active as PJ4WW and PJ4LIS.

3Y/P - Peter 1

The 3Y0L DXpedition to Peter I Island is planned for February 2027, involving a team of 19 operators. The group has secured a financial partnership with a private entity to share the expedition costs. In April 2024, the Norwegian Polar Institute granted the landing permit necessary for the amateur radio operation. Preparations are underway, with the 2026 3Y0K Bouvet Island DXpedition container of equipment currently being shipped to Texas for repacking before its final journey to the island. The team aims to spend about 20 days near Peter I Island, dedicating approximately 14 days to on-island radio activities. Departure is set for February 2027.

<https://3y01.com>

T8 - Palau

BW2/JP1RIW (aka BM2JCC), Ken, will be operating from Koror, Palau (grid locator PJ77fi) as T88KH from the afternoon of October 26, 2026, until the morning of October 30, 2026, local time. He will be QRV on 80-6 meter bands using SSB (including the CQ WW SSB DX Contest) and FT8 modes, running

ZL7 - Chatham Islands

ZL3IO, Holger, is heading back to Waitangi, Chatham Islands where he will be QRV as ZL7IO from May 25 to June 4, including the CQ WPX CW Contest as an SOAB entry. QSL via DK7AO

H4 - Solomon Islands

EA1CS, Luis, reports the callsign assigned for the upcoming October 2026 Solomon Islands DXpedition is H49A, as officially designated by the Solomon Islands Telecommunications Commission (TCSI).

D6 - Comoros Island

On April 6 UR9IDX, Ivan, began his D60DX operations from Mitsamiouli on the northern end of Comoros Island. He is running a K3 and will be operating on SSB and CW on "all amateur radio bands except VHF and 50 MHz. QSOs will be uploaded to Club Log but not LoTW. QSL direct only to his Ma-deira Island QTH.

Hamfests

Michigan Hamfests (April–July 2026)

April 11, 2026 — AC8RC Mini-Swap (Burnips, MI) Sponsor: AC8RC [ARRL](#)

VU7 - Lakshadweep

For the upcoming AU7RS expedition, the operating permit has arrived, good through February 15. VU2RS, Sarath, says they plan to have it extended and make additional payments for the stay, and be on as many days as possible. Permission from the "WPC" has also been extended, until February 25. The return tickets are open-ended. The time extension will be based on the support they receive. Their PayPal is info@sreetek.com. More info is on their website: www.vu2rs.com/vu7r. The QSL manager is M0OXO

For SALE

Chet, VE3CFK has the following for sale:

Yaesu FTdx5000. Mint condition. Works as it should. \$2200

Collins 30S-1. Collectors quality. 4CX1500 installed with screen boost transformer for 1500 Watts output. Comes with custom dust cover. \$1500

Collins 30S-1. Works. 4CX1000 tube. 700 watts output. Cabinet needs refinishing. Custom Collins paint in spray cans included as well as screen boost transformer (not installed). \$800

Collins KWM-2 with PM-2 power supply. Works great, but needs new finals. Only 80 watts output. All electrolytics in both units replaced. Comes with custom dust cover and Collins MM-1 and hand held microphone. \$800

Collins 312B-4. Works as it should good condition. Comes with custom dust cover. \$250

Collins 75S-3B. Works as it should. Very good shape. Comes with custom dust cover. \$500

Kenwood SM-230. Works as it should. Excellent condition. \$230

Home brew 4-1000 amplifier. 80-10M.. Comes with additional parts to extend to 160M. Comes with spare tube. 1500 watts output. Asking \$1500

Contact Chet VE3CFK at VE3CFK@gmail.com for more details.
